

Gawa GHEE

EST. 2006 • WEST BENGAL • INDIA

Scaling Bengal's *purity* to a global brand.

A conversion-led growth strategy

YEAR

2026 — 2027

EXECUTIVE SUMMARY

A 20-year legacy, ready for its national chapter.

20+ years legacy crafting pure ghee from West Bengal — the heart of Indian dairy heritage.

Trusted institutional supplier — including the Indian Army Canteen, validating quality at scale.

Strong B2B foundation with an untapped digital + D2C opportunity worth scaling Pan-India and globally.

FIVE STRATEGIC PILLARS

01 Brand Positioning Upgrade

02 B2B Lead Engine

03 D2C Performance Funnel

04 Distribution Expansion

05 Global Readiness

BRAND OPPORTUNITY

Where we are, and where the market is moving.

CURRENT STATE

- Strong offline reputation across Bengal
- Limited digital footprint — no owned funnel
- Institutional credibility (Army Canteen)
- Reliable supply via own dairy + factory
- Low brand recall outside East India

MARKET OPPORTUNITY

₹15,000 Cr+	India ghee market, growing 12% YoY
<i>Premium</i>	Surge in pure / desi ghee demand
<i>Q-commerce</i>	Blinkit, Instamart, Zepto — new D2C rails
<i>Diaspora</i>	4.5M+ Indians in USA + UAE
<i>Export</i>	India ghee exports up 23% YoY

— KEY CHALLENGES • THE BRUTAL TRUTH

Five gaps standing between Gawa and the next 10x.

01**Commodity Perception**

Ghee is bought on price, not on brand.
We must escape the commodity trap.

02**Weak Differentiation**

Visual identity, packaging, and story do not yet signal “premium.”

03**Limited Brand Recall**

Outside Bengal, awareness is near-zero.
No PR, no creators, no rituals.

04**Unstructured Lead Gen**

No CRM, no funnel, no attribution. B2B leads live in WhatsApp threads.

05**No Emotional Story**

Heritage is a goldmine — currently underplayed. Pure product, no narrative.
